THE CORONET NINE – COMING SOON

The countdown is on to the summer 2010 unveiling of Millbrook's new nine-hole golf course, currently under construction on land to the west of the existing course.

The 'Coronet Nine' will form part of three 18-hole combinations, where any two out of the three 'nines' can be played together, flowing through a new half billion dollar resort homes development.

The project will include a host of other improvements to the existing golfing facilities including; re-bunkering the existing course, installing a covered driving range, re-instating wetlands along the Millstream, and creating a new finishing hole for the existing front nine on the peninsula in front of the Millhouse.
