Core Conditioning
Improve your posture and build core muscle groups through a variety of exercises designed to strengthen your abdomen and back muscles while increasing your flexibility. Walk taller, feel stronger.

Balance 60+
Balance is the foundation of our life. The balance class offers functional, easy to follow exercises that will help you keep an active and independent lifestyle. Build strength, coordination, increase whole body awareness and help prevent injuries from falls. Targeted for the actively ageing.

Barre 101
This class teaches the foundations to Barre Warrior. The technique is broken down into steps that anyone can do, which means that no prior dance experience is necessary. This class is often a favourite and needn’t be limited to one or two sessions as it’s still a great workout but at a slightly less challenging pace and easier to follow. Also recommended if you’re recovering from an injury or pregnant. All levels welcome.

Barre Yoga
Pilates style barre combines with yoga to ensure effective use of breath with movement, rejuvenating your mind as well as your body. This class is ideal for a mindful workout with deep stretching and has been highly effective in rehabilitating people from hip, knee and ankle injuries as well as surgery. Physios and Chiropractors have been consistently praising the class for it positive effects on their clients. Key benefits are developing awareness of postural muscles and balance. All levels welcome.

Barre Warrior
The signature class ramps up the pace to challenge endurance, strength and fitness by adding weights, soft balls, resistance bands and high-intensity interval training. This is a total body workout set to DJ produced, endorphin inducing, deep house music. Barre Warrior is a serious work-out and it’s a program that you can connect to your inner fire and physical freedom. Technique is a must so please ensure you come to at least 1-2 classes of BARRE 101 if Barre is new to you.

Barre Beats
Is a choreographed dance cardio class set to funk based deep house music. This is all off the barre and starts with simple steps that build to a fun sequence with the body never stopping moving for 50 minutes. The style combines contemporary dance, hip hop and latin and is a joyful and fun way to get the endorphins going while toning and strengthening the whole body.

Aqua Aerobics
A wet workout using water for resistance. Great for rehabilitation or general conditioning.

Vinyasa Flow Yoga
A faster moving vinyasa practice that assumes some yoga experience & is more focused on creating smooth movement and energy flow than on precision.

Yin & Yang Yoga
This class offers the best of both worlds - an energising and uplifting flow practice that melts into deep and introspective stretches. Suitable for all levels.

Yin/Restorative Yoga
Yin/Restorative Yoga is a gentle stretching practice where the poses are held for longer, but with less intensity. Props are often used to support the body to allow deeply held stiffness and tension in the muscles and joints to melt and release. Suitable for all ages and all levels.

Slow & Steady Yoga
A simple, slower-moving ‘basics’ class. Focused on the subtle details of each pose so not just for beginners.

Pilates
Pilates improves flexibility, builds strength and develops control and endurance in the entire body. It puts emphasis on postural alignment, breathing, developing a strong core, and improving coordination and balance. The core, consisting of the muscles of the abdomen, low back, and hips, is often called the “powerhouse” and is thought to be the key to a person’s stability. Pilates’ system allows for different exercises to be modified in range of difficulty from beginner to advanced.

Dynamic Pilates
The principles and benefits of Pilates but as a faster paced express class.

Tai Chi
Tai chi is an ancient Chinese tradition that, today, is practiced as a graceful form of exercise. It involves a series of movements performed in a slow, focused manner accompanied by deep breathing.
